Signing and returning the Customer Credit Application results in a contract that is governed by the Laws of the States Wisconsin and/or Minnesota. To the extent the provisions of the contract may vary from Uniform Commercial Code or either state's laws, to the extent permitted by law the contract provisions shall govern. No modification or release shall be effective unless in writing and signed by an Officer of BDC. Customer grants permission to obtain personal credit information via credit search services.

Customer is responsible for use of all goods and products according to the label recommendations. Failure of the Customer or user to follow label instructions may result in personal injury, property damage or wrongful death. Customer agrees to indemnify, defend and hold harmless BDC from and against all liability, claims, causes or action and expenses including attorneys' fees stemming from Customer's breach of this agreement, negligence, strict liability or other misconduct.

UNDER NO CIRCUMSTANCES SHALL BDC EVER BE LIABLE FOR ANY SPECIAL, CONSEQUENTIAL, PUNITIVE OR INCIDENTAL DAMAGES WHICH ARE HEREBY WAIVED BY CUSTOMER.

DISCLAIMER OF ALL WARRANTIES: THE CO-OP MAKES NO WARRANTY OF ITS PRODUCT, EXPRESS OR IMPLIED, AND DISCLAIMS ALL WARRANTIES INCLUDING MERCHANTABILITY AND FITNESS FOR A SPECIFIC PURPOSE, EXCEPT AS OTHERWISE REQUIRED OR PROVIDED BY LAW.

BDC may at any time, include or add to the price, all taxes, excises or other charges imposed by law or incident to the production, transportation, sale or use of goods. Cash payment by certified funds in full, is required prior to delivery of products, unless you have established a credit account with BDC.

When does finance charge accrual start?	A BDC patron has 30 days from the closing date to pay the new balance before finance charges will accrue on the account.
Is there a time period during which credit may be repaid without incurring a finance charge?	Yes. Finance charges will be imposed on any new purchases only if they are not paid in full by the end of the month following the closing date.
What is the finance charge rate?	A periodic rate of 1.5% per month, 18% per annum, or the maximum rate allowed by law, is charged on all balances still owing on the 1st day of the second month following the month in which credit was extended.
What method is used to figure the balance on which the finance charge will be computed?	Credits and payments are deducted from the previous past due balance to arrive at the new past due balance on which the finance charge for the following month is computed
How will the finance charge be determined?	Finance charges are computed on the average outstanding balance for the period.
Are there other charges in addition to the finance charge?	None. Except, however, BDC is also permitted to recover its attorney's fees and other costs associated with collecting amounts owed BDC as provided more fully below under recover of attorney's fees and collections costs.
Does the Co-op take a security interest?	Usually not, but there are cases when BDC will request a perfected interest either in the things you are purchasing and/or in other collateral you have an interest in. If additional security is requested, it will secure previous credit extended plus credit extended in the future as well.
Does the Co-op have a first lien on your equity in the Co-op and the right to offset against it?	Yes. Part of BDC earnings are distributed to qualifying patrons in the form of equities, which are eventually revolved according to policies established by the Board of Directors. The Articles of Incorporation give BDC a first lien on any equities you earn from patronizing BDC. BDC routinely offsets those equities against accounts that it considers uncollectible. BDC reserves the right to discount your equities if it exercises its right of offset.
Is there a point where your payment terms will be cash on delivery (COD) if your account is not paid?	Yes. Accounts must be paid in full within 30 days after the closing date, and if the account is not paid, you may be required to pay cash for purchases thereafter. In addition, BDC reserves the right to place any account holder on immediate COD anytime BDC has reasonable belief that repayment will not be made in accordance with the credit policy, or if the Co-op does not want to extend credit for any reason that is not otherwise unlawful. However, special credit arrangements can be made with the credit manager's approval.
Is there a minimum amount due?	Yes. BDC is not in the business of providing financing to its customers. BDC provides convenience credit, and the credit policy requires payment of the account in full by the end of the month following the closing date. BDC may, but is not obligated to, continue extending credit to those who do not pay their account in accordance with the BDC credit policy. Send payments to Burnett Dairy Cooperative, 11631 State Road 70, Grantsburg, WI 54840

RETURN

Out-of-Gas Policy

Our mission at BDC is to provide propane in a way that is as safe as possible for you and our employees. Unfortunately our driver/serviceman is reporting to your residence/business upon receiving your report of an outage or leak.

It is imperative that you are home so we can check the entire gas system for leaks as well as light all pilots on any appliances. If we arrive and no one is home, we will not fill your tank if it is out and your propane system will be locked until an appointment is made to be at your residence. Any return trip will result in additional charge.

In the event of an Out-of-gas condition, the below procedures will be followed by the BDC driver/serviceman who is reporting to the call.

1. When a customer calls to report an out of gas, instruct the customer to close the service valve(s) on the container. Also instruct the person who called to shut off all appliance valves. **Note:** Record the date; time, and name of the person to whom you are giving instructions and have the caller verbally demonstrate to you that they understand your instructions
2. When the delivery person arrives at the customer's location in response to an out-of-gas call, they should make sure the service valve(s) on the container(s) is/are completely closed. Never assume that the customer completely closed the valve(s). Once inside the location check all appliance gas cocks, appliance control valves and range top burners to be certain they are completely closed. Also, check for any evidence of gas appliance changes and open or uncapped lines.
3. When the delivery person arrives at the customer's location to make a regular propane delivery, the delivery person should first determine that the container is not empty. If the container is empty, close the container(s) service valve(s) before filling the container(s). Then follow the suggestions outlined in item 2 above.
4. Fill the customer's tank(s).
5. Immediately after turning off the gas, the piping system should be checked to ascertain that no gas is escaping. If any leakage is indicated, the leak must be repaired before the service can be resumed.
6. It is the responsibility of our qualified employees to put appliances back in service. The BDC delivery/serviceman will make certain that all pilot lights are properly lit. The homeowner/renter must be present for our delivery/serviceman to enter their location as well put appliances back in service. If a problem is found in relighting an appliance that we do not have the equipment to make safe for our customer, the delivery/serviceman at the location will give you information to contact an appliance person in your area. ***BDC does not service indoor appliances – beyond the relighting of pilots on an out-of-gas/leak call.***
7. **Due to Insurance regulations, industry standards, and our company policies BDC will only allow two out of gas deliveries. If a third out of gas situation should occur, we reserve the right to terminate service.**

Will Call Customers

Customers who are not on route service must call in their request for delivery service. To avoid out of gas and service interruptions, it is strongly recommended that Will Call customers closely monitor their propane tanks and notify Burnett Dairy Cooperative when their tank level reaches 20%. Upon receiving a request for delivery of propane, Burnett Dairy Cooperative will deliver the propane within 3 business days.

Will Call Customers Only-Out of Gas/Service Interruption Policy

Running out of gas is a safety issue. Any customer whose tank becomes completely out of gas, or whose tank has been shut off, or if service has been interrupted must have a pressure test performed. This leak test must be performed prior to putting the system back in service. It is necessary for a responsible party to be home to give the service person or delivery driver access to all the appliances for relighting. Please read our companies Out-Of-Gas Policy.

Route Service

We encourage all customers to have our scheduled delivery service. With this service propane is delivered to you on a regular basis, without having to place an order. Enclosed is an optional Keep-Fill Form for signing up for this service, the form explains the service and what is required to have the Keep-Fill service at your residence. Customers are still required to monitor their tank levels.

Pressure Test and System Check Policy

Accidents can result from the failure to perform a complete system pressure test and/or leak check from the propane tank to the system pilot orifices. Burnett Dairy Cooperative must verify the integrity of your LP gas system with a pressure test and/or leak check as defined by NPGA Bulletin T403, and document the results. The following situations call for a system check:

1. New System or New Customer
2. Occupancy Change
3. System Interruption following repairs or modifications, changing regulators, turning off the gas, etc.
4. Out-of-Gas situations
5. Suspected Leak
6. Customer adds appliances or tampers with the system and Burnett Dairy Co-op is made aware of it.

The following National Fuel Gas Code, ANSI Z223.1-1999, describes the procedures for qualified persons servicing a system for gas utilization:

System and Equipment Leakage Test

- 4.2.2 *Before turning gas on.* Before gas is introduced into a system of new gas piping, the entire system shall be inspected to determine that there are no open fittings or ends and that all manual valves on equipment are closed and all unused outlets are closed and plugged or capped.
- 4.2.3 *Test for Leakage.* Immediately after the gas is turned on into a new system or into a system that has been restored after an interruption of service, the piping system shall be tested for leakage. If leakage is indicated, the gas supply shall be shut off until necessary repairs have been made.
- 4.2.4 *Placing Equipment in Operation.* Gas utilization equipment shall not be permitted to be placed in operation until after the piping system has been tested and determined to be free of leakage and purged in accordance with 4.3.2.

Scheduled Delivery for Propane and Fuel Oil Customers

Scheduled Delivery is a system of gauging the level or percentage in your propane or fuel oil tank. This system is based on the “heating degree days” of the current heating season along with the prior year(s) usage of your home. The system works well from year to year providing that the heating system in your home remains the same (furnace, gas fireplace, clothes dryer, thermostat setting etc.). When any part of your system changes you need to make us aware of the change, so that we can adjust your usage. Burnett Dairy Co-Op will do its best to fill your tank when it nears the 20% mark with propane or ¼ full with fuel oil. **It is the customer’s responsibility to make sure their tank does not run out. This means you will need to still check your tank level regularly.**

Requirements needed to qualify for scheduled delivered service

1. Approved application for charge account and/or Pre-Pay in your account
2. Propane or fuel oil must be your **PRIMARY** source of heat.
3. Use propane or fuel oil on a year around basis.
4. Driveway must be plowed for truck access during the winter months.

If any of the following pertain to your heating situation you will not qualify for scheduled delivery service

1. Burning wood in conjunction with propane or fuel oil usage.
2. Propane or Fuel used as backup to electricity.
3. Seasonal or weekend homes/cabins, due to irregular occupancy and usage. **(Unless your home/cabin has an approved Cold Temperature monitoring system)** Completing this form and owning a season home, means you are taking responsibility for a cold temperature monitoring system. **Making you the customer solely responsible if all conditions listed are not met.**

In order to keep Scheduled Delivery Service working in an efficient manor you must

1. Notify the Propane Department/Fuel Department or your delivery person of any changes in appliances, heaters, room additions, drastic thermostat changes, or anything that can affect your usage.
2. Contact the office if you choose to be removed from the Scheduled Delivery Service for whatever reason. If you are on Scheduled Delivery and receive a delivery you are responsible for its payment. If you choose to be removed from the service for lack of Pre-Pay dollars, driveway conditions or any reason you must contact the office at 715-689-1032.

In addition, you must agree to the following

Force Majeure- Neither party to this Agreement shall be liable to the other party hereto for any loss or damage resulting from any delay or failure caused by or arising out of acts of God or the elements.
